

DECISION-MAKING OF YOUR APPLICATION BY THE DEPARTMENT OF HOME AFFAIRS (DHA)

WHAT YOU NEED TO KNOW!

You prepare and lodge your migration application by:

- yourself, or,
- engaging a non-specialist who is a mere information gatherer and form filler

and you:

- stress and wait up to one to two years for a decision
- with your life on hold

only to receive a **Refusal Decision** resulting in significant:

- legal complexity and possible ineligibility for a further application
- cost (application charge & professional fees non-refundable);
- further costs (fresh application / appeal);
- stress; and
- delay

PREVIOUS DHA DECISION MAKING

Previously your application was decided by the DHA:

- in a relatively non-complex, predictable and transparent manner
- on its merits by a single decisionmaker
- in a relatively short timeframe
- with an opportunity to provide further documents if required

CURRENT DHA DECISION MAKING

Using a Global Processing Model, the DHA now decides your application:

- anywhere in the DHA global network of processing centres
- in numerous stages with different decision makers each with differing and highly subjective processing requirements
- utilising risk profiling and artificial intelligence determining the applicable scrutiny and quality of assessment
- with lengthy and lengthening processing timelines
- with increasingly complex and bureaucratic requirements and prescriptive procedures
- including constant changes in Migration Regulations, DHA Policy Guidelines, and processing procedures and eligibility

resulting in the decision for your application:

- lacking in predictability, transparency and accountability
- variable and questionable standards of assessment, consistency and integrity
- with refusals with limited or no opportunity to provide further documents or information
- with significantly increased unlawful refusals from maladministration, lack of procedural fairness and jurisdictional error
